What is Fibo?

Wall panels with Aqualock + **Customised fitting tools** + **Profiles for ease of installation** + **Sealant for a watertight result** + **Customised cleaning products**

A simple and complete solution

Fibo's wall system is fully watertight and is supplied as a complete solution consisting of wall panels, profiles and accessory products, which simplifies installation and ensures a perfect finish.

The Fibo wall system is approved under stringent SINTEF wet room standards in Scandinavia. The Fibo panels can be screwed directly onto the exisiting wall or stud wall. The panels are easy to cut and adapt to your walls. They can even be glued onto existing wall surfaces, such as tiles or concrete with Fibo Adhesive. This means you have no need for backing boards or chipboard.

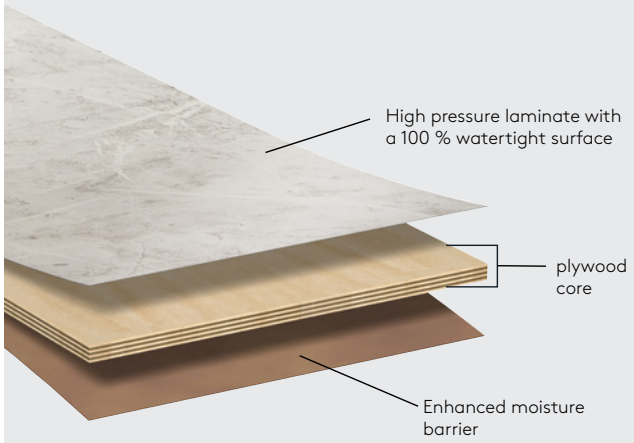
The system does not require plaster, vapour barriers or grouting. All panels are supplied with our unique Aqualock system and are easy to fit. The smooth and durable surface can withstand both water spray and temperature variations.

The panels dry quickly and are easy to clean. Simply follow the recommended fitting instructions, and you are guaranteed a result that will last for years to come.

Having the right accessories

The range of Fibo accessories and profiles provide everything you need to easily install and maintain your wall panel system.

We recommend that you read the fitting instructions carefully and check out our videos at **fibo.co.uk** to ensure correct installation. Provided they are correctly installed, we provide a 25 year manufacturer's warranty on our panels.



World class wall panels

Fibo wall panels have a core made from multi-layered PEFC-certified plywood. The sheets are pressed together and clad with a high-pressure laminate on the front and a stabilising moisture barrier at the back. When sealed together, the tongue and groove panels create a 100% watertight and environmentally friendly surface.

Feature Panels

page 30

Add one of our feature panels to your bathroom to contrast or complement your chosen colour scheme.

The colour and pattern variation can vary from panel to panel. Please make sure you view laminate samples or visit a showroom to ensure you are happy with your choice of decor before purchase.

Scandinavian

Tile-Effect Collection

Norwegian heritage

Bang on trend, the Scandinavian range reflects our Norwegian heritage with clean lines and smart tile effects.

Whether you prefer a rustic wood effect, a super-modern industrial look or a warm and cozy haven, This collection has something for everyone and can be styled in line with modern bathroom trends.

Fibo's tile-effect panels are specially produced with realistic grout lines that make them look and feel just like tiles but without the hassle of grout maintenance. Life is too short for cleaning!

Urban

Tile-Effect Collection

Modern, bold and stylish

Our Urban collection is both modern and stylish. With neat geometric designs such as the Stacked Subway, it is inspired by patterns and shapes found in urban city environments.

The trendy Metro Brick is now available with a splash of colour as well as the ever-popular white and grey shades. For a bolder statement in the bathroom, why not choose one of our Hexagonal designs now available in stunning Dusky Pink. For a smart way to transform your walls, why not try the classic Herringbone or our new Chevron designs?

Signature
Collection

Plain panels that are anything but plain!

Featuring always on-trend industrial styling and a range of natural tones and textures.

Our industrial plain panels are moody and chic with a nod to the Scandinavian design trend. Our natural tones provide solid colour options whilst our natural textures can add a bit of warmth to your bathroom.

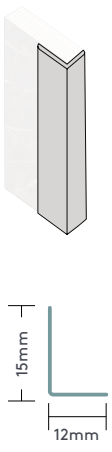
Code: CHR-JS

Small L Shape



Aluminium
Code: RSA-SLP

Fibo top tips

- Use a Hidden Internal Corner if you don't want to see a metal strip.
- We recommend using a base profile to protect the bottom edge of the panel in a shower, bath or wet room.
- To hide exposed/raw edges use either a J or L shape.
- For window reveals or boxing in, use an L shape.
- Always use Fibo Seal when joining panels together or using profiles.

The right accessories for the job

Choose from the Fibo range of accessories to ensure the perfect finish every time. Ideal for use with Fibo wall panels, our accessories create a quicker, trouble-free installation.

Fibo Adhesive: With high tensile strength, this hybrid polymer is the perfect adhesive for use with wall panels. 1 tube will glue approx. 3 x 600mm panels. Size 290ml. Pack size: 12. Code: FIBO-ADHESIVE

Fibo Seal: A waterproof, hybrid polymer sealant available in either grey or white. 1 tube of sealant is enough to seal all joints on up to 4 x 600mm panels. Size 290ml. Pack size: 12. Code: FIBO-SEAL-WHITE/ FIBO-SEAL-GREY

Fibo Clean: A special cleaning spray to be used in conjunction with the sealant tool for removing excess unhardened sealant from wall panels. Size 400ml. Pack size: 12. Code: FIBO-CLEAN

Fibo Wipes: Multipurpose cleaning wipes for removing unhardened sealant, oil and grease. 35 wipes per tub. Pack of 6 tubs. Code: FIBO-WIPE

Sealing Tool: The perfect tool to get the optimum seal in Fibo wall panel joints and corners. Pack size: Box of 50 packs of 2 tools.. Code: FIBO-TOOL

All accessories are sold in box quantities. Please speak to your local stockist for more information or call our Sales team on **01494 771242.**

The benefits of using Fibo

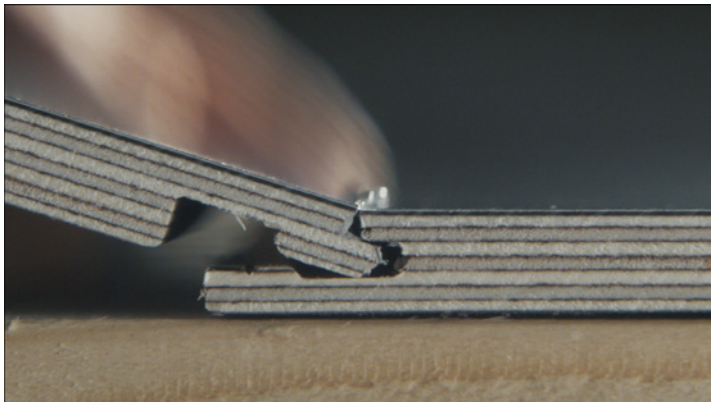
100% waterproof

Our Aqualock joint makes Fibo wall systems the perfect choice for both renovations and new builds. Our unique system provides a 100% waterproof surface when used in conjunction with an approved sealant such as Fibo Seal.

25 years Manufacturer's Warranty

Look and feel like tiles

If you still want the look, feel and effect of tiles without the hassle and mess of grouting, Fibo is the perfect alternative. Some other wall panel manufacturers simply print the grout line onto the panel. However, we choose to carve out the grout line during the manufacturing process in our state-of-the-art factory.



Precision engineered Aqualock

Our panels are clicked together with the Fibo Aqualock tongue and groove joint which provides virtually invisible join lines. Joining the panels couldn't be easier. Just seal, click and go!

Five times faster than tiles

Fibo wall panels are designed to make installation easy and efficient. The wall system can be mounted up to five times faster than tiles and panels can be attached to a timber frame, existing tiles or plasterboard.

Saves you money

Our wall panels are a more cost-effective alternative to tiles because you can save a significant amount of money on labour costs due to the ease of installation. There is no need to wait for tanking or grout to dry so you can install Fibo in a day!

Tried and tested

Tried and tested in Norway for over 70 years, Fibo was the first to make the 'click' system for walls. Starting out quite modestly in 1952 in a small factory, today we operate a multi-million pound award winning factory producing panels for over 100,000 bathrooms a year. We are now the leading supplier of plywood waterproof wall panel systems across Europe.

Good for you and the environment

We only use PEFC-certified renewable plywood, without harmful chemicals, to produce our panels. Independent research confirms that our panels have a 37% lower carbon footprint than tiles when installed in a typical bathroom. To find out more, visit **fibo.co.uk**.

Certified antibacterial

All Fibo wall panels now come with antibacterial certification. Our panel surfaces contain no harmful substances, require no special maintenance and are tested according to the ISO 22196 standard. This means that it is virtually impossible (99.99%) for E. coli and Staphylococcus bacteria to survive. The certification covers all our panel decors, both with and without, tile designs.
